---

### INSTRUCTIONS

**Preheat oven to 350 degrees.** Melt butter. Stir cake mix, butter, and eggs together until combined. Allow dough to rest 10 minutes (optional). Use a 1.5 tablespoon cookie scoop but underfill it just slightly. Scoop dough onto a lightly greased cookie sheet. Bake 9-10 minutes until edges are just set and tops have cracked. Cool 5-10 minutes on the cookie sheet before removing.

Allow cookies to cool completely before frosting. Frost individual cookies, or frost them sandwich style.

Makes 24 cookies or 12 cookie sandwiches.
